

RENAISSANCE SCHOOL INTERNATIONAL:

Preparing Students for a Global Environment

By Julie Leah

Renaissance School International (RSI) provides a trilingual immersion learning environment for students from Preschool through High School. In addition to offering trilingual education, the curriculum also encompasses advanced academics, leadership training and skills for maintaining a healthy lifestyle. Established in 2005 in Panama, Florida, the RSI Costa Mesa campus opened its doors in September 2011 when its Executive Director, Carrie Mizera, wanted to create a curriculum so that her son would be educated and prepared to be competitive in the 21st Century. In September 2020, RSI Costa Mesa will celebrate its tenth academic year.

According to Mrs. Mizera, "We believe learning is fun and languages are best learned at an early age." When a child has the opportunity to learn a language from a young age it helps to ensure the child's proficiency level in that language, while also helping in

the development of brain function in a way that a monolingual education is unable to provide.

The school believes wholeheartedly in its students and wants to see its students reach their highest potential. It is rewarding for its educators to see the students learn, grow, and become productive global citizens. Mrs. Mizera enthusiastically stated, "When a child's curiosity and drive to explore is awakened, it truly is inspirational."

The Renaissance learning environment is a place of joy and this can be seen whenever there is a birthday on campus. Mrs. Mizera explained, "We sing Happy Birthday in English, Chinese, and Spanish. The students also enjoy playing musical chairs with their teachers during assembly and it's hilarious to see the students get so excited when their teachers lose."

RSI also has an online learning platform which has proven to be a blessing, in light of the current coronavirus pandemic. RSI has now completely transitioned to a remote learning platform, and the children are successfully continuing their education online.

On a personal note, when Carrie Mizera's son wanted a dog, she and her husband opted to raise chickens instead. It made sense given their long hours at the school. She said, "Caring for chickens is a good way for my son to learn responsibility. Besides, it sure is nice to enjoy free range eggs whenever we can."

Mrs. Mizera is reaching out to the Mesa Verde community, "I believe we are the best kept secret in the Mesa Verde community and I encourage families to allow their children to explore language learning at a young age."
